Innovative Turnaround & Insolvency Practitioners

Company Voluntary Arrangement Experts

With some 300 CVA led rescues over 15 years, KSA can build exceptional and innovative rescue strategies for distressed but viable companies.

But don't take our word for it.....

KSA's team did a fantastic job getting our group with a very complex financial situation (connected CVA's, £17m secured creditors, unsettled litigation, public company) approved for a CVA with a 100% favourable vote from our unsecured creditors and 93% vote from Shareholders.

Very impressive result, outstanding knowledge of the process (industry expert) and extremely creative solutions to get the connected CVA's approved. Highly recommend Keith and his firm KSA to help you with your company's financial issues
